**Re: Hudson River PCBs Superfund Site
Consent Decree (Civil Action No. 1:05-CV-1270)
Notification of Remedial Action Monitoring Program 2013 Fall Fish Collection**

Dear Mr. King:

Paragraph 30 of the above referenced Consent Decree requires that the General Electric Company (GE) notify the U.S. Environmental Protection Agency (EPA) and the State of New York (the State) not less than 14 days in advance of initiating field work unless shorter notice is agreed to by EPA. On August 8, 2013, EPA requested that the 2013 fall fish collection in the vicinity of Certification Unit (CU) 76 be conducted prior to dredging in CU 76. In response, on August 9, GE notified EPA and the State by email that the fish collection in this area would be conducted on August 13. This letter provides a follow-up notification that the 2013 fall fish collection at the Northumberland Pool sampling stations in the vicinity of CU 76 will be conducted on August 13. We will meet at the Schuylerville boat launch at 11:00 AM.

The remainder of the fall fish collections will be conducted September 3 through 6. We will meet at the NYSDEC West River Road boat launch at 10:00 AM for the start of the September sampling. The start of this field work will be contingent on weather conditions allowing safe performance of the sampling.

Please contact me if you have any questions.

Sincerely,

Adam Ayers
